

Pre-Proposal Meeting

City of Fremont Environmental Impact Report for General Plan Update

***9:00 am - Wednesday, August 30, 2006
Niles Conference Room
39550 Liberty Street, Fremont, California***

Purpose

The purpose of the pre-proposal meeting is to describe the General Plan Update process that has recently commenced; provide information and answer questions to consultants interested in submitting a proposal; and, clarify any discrepancies in the Request for Proposals document.

Project Description

The City of Fremont is seeking proposals from a qualified consultant team to prepare and consult on a comprehensive Environmental Impact Report for the update of the City's General Plan. The City has initiated a comprehensive update of the 1991 General Plan and intends to contract with a consultant team to prepare an EIR pursuant to the California Environmental Quality Act (CEQA). The EIR will evaluate all potential environmental impacts of the City's General Plan Update and recommend mitigations to reduce potential impacts to non-significant levels.
